Overalls Move May Raise Price to Workmen

The opinion that the "back to overalls" movement may prove a misfortune to the laboring class has been expressed by at least one Canadian economist. James Macleod, labor commissioner on the Canadian board of commerce states: "If the gentlemen who, it is alleged, are going to wear overalls (no doubt many of them for the first time) will wear them until they require patching or longer the campaign may have a beneficial effect. If, however, a temporary fad only is to be indulged in, the result will no doubt tend to increase the price of overalls to the laboring man, who has to wear them."

School Board Will Trade Locally

The regular, monthly meeting of the Blairmore School Board was held at the schoolhouse on Friday evening last. Chairman Hamilton and Members Chappell and Duffell, and Secretary Harmer being present.

The minutes of previous regular meeting and of a special meeting were approved as read, and the following accounts were passed for payment: F. E. Osborne \$11.00, Insurance \$142.46.

A communication from the department re secretary-treasurer's bonds was read to the meeting, and that officer will be bonded as required.

Following a resolution passed at previous meeting, requesting secretary to procure tenders for year's supplies for the school, tenders were on the table from several out-of-town and local sources.

Local supply houses were invited to offer tenders for the supplying of an institution that looked to them for financial support and upkeep.

A member of the board was appointed to act as supervisor of supplies purchases, and it was practically decided to secure locally all supplies possible.

The Salvation Army applied for the use of the mission hall, now occupied by the board as a class room. The board felt that it was beyond their powers to sublet the room for other than school purposes.

Plans and specifications for proposed addition to the school building were presented to the board, and a by-law to authorize the raising of necessary money was read a first time.

The meeting adjourned at 10.30.

The man who confessed to having murdered Carl Nicholas was executed at Varsovie on Monday. Before being led to the scaffold, he begged to be allowed to wear the silk shirt which Nicholas wore when he riddled him with bullets. The request was granted. Those who have spoken at length with the murderer believe he slew the czar mainly because he wanted the shirt.

Town of Blairmore 1920 Assessment Roll

NOTICE IS HEREBY GIVEN that the Assessment Roll of the Town of Blairmore for the year 1920, has been prepared and is now open to inspection at the office of the secretary-treasurer of the Town from 10 o'clock in the forenoon to 4 o'clock in the afternoon on every day which is not a public holiday except Saturday (and on that day from 10 o'clock in the morning to 12 o'clock noon) and that any ratepayer who desires to object to the assessment of himself or of any other person, must within thirty days after the date of this notice lodge his complaint in writing at any office.

Dated this 4th day of May, 1920.
F. W. WRIGHT,
Assessor.

Divorce Has No Apparent Age Limit

There is no age limit to divorce. In Oregon a woman at the age of eighty-two years is suing for a divorce from her husband, who is a tall, stripling of seventy-one summers. This seems to be another case of too much mother-in-law, as the wife asserts that her husband's love has been alienated and undermined through the work of his mother, who is now ninety-four years old and who never liked her, anyhow. They have been married some ten years now, and the wife said that when the husband took money to buy an auto for his mother and wouldn't let his wife ride in it, she knew that his love was dead. When she remonstrated the husband coldly informed her that she could leave the house. When the wife said that the home was her own and bought with her money, the husband replied, "That might be so," but he had thoughtfully had the deed recorded in his own name. Now she has to appeal to the courts. It is rather rough when a bride of eighty-two has to compete with a ninety-four-year-old mother-in-law for the affections of her husband.

Illegal Use of Stamps

A number of cases where people have sent remittances to mail-order houses by means of postage stamps have been brought to the attention of the postal authorities, who wish it to be understood that the sending of remittances in postage stamps is contrary to the postoffice regulations. Stamps to the value of nine cents may be attached to postal notes. Any larger amount is strictly forbidden. Money orders or postal notes are the safe, reliable, and most satisfactory means of making remittances.

Death of Cowley Merchant

T. B. Christie, a Cowley merchant of but a short period, died suddenly on Saturday last. Mr. Christie was born in Glasgow, Scotland, and came to Canada just twenty years ago. For years Mr. Christie had been troubled with heart failure, and since coming to Cowley his condition showed no signs of improvement. A little over a year ago Mr. and Mrs. Christie purchased the business of Josiah Kean at Cowley. Funeral took place at Cowley on Monday, Rev. A. W. MacMichael officiating.

Thomas W. Simpkin, the itinerant printer, who shot and killed Dr. James Wright Markoe, one of New York's distinguished surgeons as he was passing the collection plate in a fashionable church at New York, has been committed to the state asylum for the criminal insane at Mattawan, N.Y.

Applications are now being received for honorary membership in The Pass Bootleggers' Association. Applicants must vouch for no water on the brain, in the blood or in the whiskey.

Sunday next will be observed by church congregations throughout the Dominion as Mother's Day.

The London Free Press remarks: "Premier Drury is to be congratulated upon refusing to be a party to the overall campaign. Dignity in the state is not safely to be trifled with. Let those whose tasks call for overalls wear them. As for the rest there is still a goodly supply of old clothes."

The rebuilding of the Novaria block, which was gutted by fire several months ago, has commenced. We understand that an attractive front is planned for the building and that the rebuilt premises will be considerably larger than the old.

The Successful Man

He pushes for more business in busy seasons, and if customers are scarce, still persists.
 He practices strict economy and does not consent to penuriousness.
 He pays promptly and collects as he collects.
 He is courteous in manner and appreciates the commercial value of cordiality.
 He is honest, not from policy, but from principle; he considers success lacking self-approbation as failure and disguise.
 He thinks first and deeply; and speaks last and concisely.
 He possesses executive ability to a degree which renders him appreciative of the most valuable points in employees.
 —Backbone.

Ten

Some men have within them that which always spurs them on while some need artificial incentive, outside encouragement.
 Some men extend themselves under stern discipline; some respond only to a gentle rein.
 Some men need driving; some coaxing.
 Some need the spur; some the sugar lump.
 Some men do their best with work paid at shoulder high; some must have it given them a piece at a time.
 Some men thrive on discouragement; some cannot work without cheerfulness.
 Study men—the men over you, under you, around you.
 Study them and learn how to get from each the most that is in him. —The Chair Man.

Look pleasant. It is the grouchy frow that helps dull care plow the furrows in your face.

In some parts of central Africa it is considered respectful to turn the back to a superior.

Blairmore, Alta., Thurs., May 6, 1920

The old saying that "One Man's meat is another man's poison," appears to be true in the case of different kinds of live stock. It is a fact that some plants which poison horses are not injurious to cattle or sheep, and some which cause loss among cattle and sheep are not eaten by swine and horses. In Bulletin No. 39, second series of the Experimental Farms, "Principal Poisonous Plants of Canada," by Miss Faith Fyles, B.A., obtainable free upon application to the Publications Branch, Department of Agriculture, Ottawa, a list of plants which do injury to the various classes of animals is given. The bulletin which is prepared for live stock owners, gives information regarding poisonous plants and enables the farmer to distinguish the most harmful species in his neighborhood, so that he may be able to avoid pasturing animals on infested areas until the danger is past. The yearly loss due to plant poisoning is known to be on the increase, but the amount of the loss is not ascertainable, because many fatalities are attributed to other causes through lack of knowledge of poisonous plants.

An Experimental Forest

Canadians have now been familiar for a long time with the words "experimental farm," and while the heading of this paragraph may seem a little new, a moment's reflection will show that the good work our experiment farms have done for agriculture, our experimental forests are likely to do for forestry and lumbering. The people of this country now realize that a large proportion of Canada is admirably suited to the growing of timber, and is not suited to the growing of ordinary field crops. Rough hilly land, sandy plains and ridges, and ridges strewn with boulders are types of soil better suited to growing trees than to growing anything else. At the same time the increasing price of lumber all over the world, proves to Canadians that the forests growing on these valuable lands will continue to form one of Canada's greatest resources. In the Upper Ottawa country and in many other parts of Canada there are districts from which a crop of timber has been taken by the lumbermen, but which have not been occupied since that time by settlers. These districts are now being covered again with a new growth of timber, but in many cases it is not as good timber as that taken off thirty or forty years ago. It is here that the knowledge and skill of the forest engineer comes in. He can by weeding out the inferior trees give the better species like pine and spruce a chance to develop and to cover the country. Details of such work have been reduced to a system in Europe, as many Canadians learned when they served in the trenches in France, but experience in regard to European forests cannot be taken as a guide in a country like Canada, where many conditions are different. To study this problem of how to produce good forests as quickly as possible on cut over or burned-over lands, the Dominion Government, at the request of the Honorary Advisory Council for Scientific and Industrial Research, instructed the Forestry Branch of the Department of the Interior to establish an experimental forest on part of the military reservation at Petawawa. The tract is an ideal one, as it presents conditions as they appear over a large part of Ontario and Quebec. Three working seasons have now been spent on the experimental forest at Petawawa and already much information has been gained as to the rapidity of tree growth. With these studies continued and extended, Canadians will in years to come know as much about their forests and how to handle them as the French know about theirs.

Overtime put in on brain improvement pays a lot more than time and a half.

Like a wheelbarrow, business stands still unless somebody pushes it.

A man's real limitations are not the things he wants to do but can't; they are the things he ought to do but doesn't.

Adverse Exchange And Production

The fluctuating rate of exchange, inconvenient as it may be, on the whole an accurate barometer of the international situation. A dollar bill is only a promise to pay and is valueless unless exchangeable for gold, however, it is only good as long as it can be exchanged for gold. It can be redeemed with wheat, pulp, paper, lumber, fish, coal, anything at all of which the country issuing the note produces a surplus for export. The way to right adverse exchange is to speed up production, so that we can pay for all the goods imported, with other goods exported. Recrimination that is, cutting down expenditures on unnecessary articles of luxury, will help.

How Forest Fires Start

The rise in the price of lumber has awakened Canadians to the fact that the forests comprise one of Canada's greatest resources. The land on which our forests stand is in the majority of cases not fit for farming, and consequently, the fact that no forests are growing there represents a dead loss. Forests cut down grow again, with comparative rapidity, but trees burned over by fire are slow to reproduce, and when trees come on again they are likely to be of inferior kinds. Thus there is every inducement to save our forests for the axe and to save them from fire. Yet in Canada eight or ten times as much timber has been burned as has been cut. Our governments and lumber companies are not fighting forest fires, but they still take a terrible toll. First start from many causes, but camp fires left alight by tourists and hunters, and cigarette stubs and burning matches thrown carelessly into the underbrush are among the most prolific. It is to the advantage of every citizen, young and old, to aid in keeping down the forest fire evil.

Can Women Keep Secrets

With the emancipation of women clerical theories are being proved. Gallant writers have painted glowing word pictures of the modern woman, the new woman in business life—the position she has won by service, advanced by cheerfulness, maintained by industry and varied by the habit of taking pains. And gradually the country has grown in the business world that women can be trusted with trade secrets. Thus the time-honored tradition that women are not by nature intended to keep secrets has been exploded. A new race of women has risen up, a race which has required the habit of silence where business affairs are concerned. Looking back into the history of women, one is surprised at the number of women who have sacrificed their lives rather than reveal secrets which would have betrayed either those they loved or a religious or national cause. And today these heroines of silence have worthy successors in the sphere of diplomacy. Foreign business men, too, have proved the worth of their woman positions in maintaining secrecy concerning their plans and secrets. All these women spend their leisure hours as though they did not have a diplomatic or business secret to worry them, and reveal no seducery to the proverbial yearning to tell something in strict confidence to a good friend. The doors of parliament, too, have been opened to aspiring women. But parliament is a talking shop. It has no secrets either to keep or give away.—Ex.

Shorter Working Hours

Unions in England Demand A Forty-four Hour Week

Shorter working hours and decreased production have a disastrous effect on industry since the Armistice. While few will be found to object to the shorter possible working week, most people are convinced that hours of labor should be economically adjusted to ensure a higher and not a lower standard of living.

The Amalgamated Union, apparently either ignores economic laws or is convinced that the forty-four hours' week is justifiable. It will be interesting to examine its arguments when the opportunity is given.

The bill as drafted is wholly wrong in principle. It is an infringement of the liberty of the subject, some of its provisions are unworkable, and it would set up a trade-union bureaucracy which would be just as harmful to the individual worker as to the country generally.

—The Shipbuilder, London.

It is estimated that seventy thousand tons of corks are needed for the bottled beer and mineral waters consumed annually in Great Britain.

Competition is the life of trade and the death of the non-advertiser.

A store is known by its advertising—judged, weighed, measured and classified by its advertising.

The Helicon-Italian Co-operative will move into their new premises, the Mah Moon restaurant building, about next Thursday, and we hear that solicitor Gillis will occupy the rooms to be vacated by the Co-op to the Blairmore Hotel building.

Mr. Ujika, Japanese consul at Vancouver, believes there is a wonderful field in Japan for B. C. coal, and states that it could be shipped to Nippon under present high freight rates and sold at a good profit. He pointed out that last year over twenty seven million tons were shipped to Japan and sold for \$22 a ton.

An American sailor who did not know cockney went to Scotland Yard to report that he was on his way to the hospital for a stay. The sergeant behind the desk looked up at him and said, "Are you going down to d'ee?" "Well, if I do I will not be any more trouble to you, except that you will have to ship my body back to the States." An onlooking clerk followed him to the door and cleared up both the meaning and the sailor's gloom.

M. Hecksy paid a bushe - visit to Fernie on Wednesday.

C. P. Hill, of Montreal, is on his way east to visit his family.

Edith Kelly found a divorcee from Frank McClelland in New York.

Miss M. Worthington, who left here for Saskatchewan on Monday night.

"The Minister's Rifle" was given a rousing reception at the Coleman opera house last night.

The remains of the late Mrs. A. G. MacKay have been sent to Owen Sound for interment in Sydenham cemetery.

A guy up north is advertising for "fat hens." If he'd come down to Blairmore he might save the cost of advertising.

We evidently were misinformed as to the date of Arbor Day, and find that by a later proclamation May the 14th is the date set.

The postoffice moved into new premises on the east side of Seventh Avenue, in the north end of the Thompson building, on Tuesday.

His Peter McLaren, who died recently in Perth, Ontario, held timber and ore lands in Virginia that sold recently for \$300,000,000.

"The Wash Out"

(Written by Charles Royal)

An old maid's lonely night gown Hung upon the back yard gate,
 It flirled with the breeze
 Trying hard to find a mate.
 But one dark night a gust of wind Sent by the hand of fate,
 Blew a bachelor's silk pyjamas To that same old backyard gate.
 The combination on the gate,
 Was gone next day at dawn,
 And the skirts began to carry 'tails'
 Of an elopement on the lawn.
 Now time works many changes,
 So all the gossip state,
 For now you'll find "small dollie clothes"
 On that same old backyard gate.

An Appreciation Of The Elko Notes

Not seeing the Elko Notes in the local papers a lady, residing at Salmo, B. C., writes Fred Roo to find the reason why. Oh what is the matter with you Fred Roo?
 It's weeks since I last saw a line from you.
 I've hunted the "Daily News" through and through.
 Can it be that you died with the Flu, Fred Roo?
 Your notes they were breezy and comical, too.
 From salamine to ridiculous they often grew.
 But nevertheless they were usually true.
 I wonder what's happened to you, Fred Roo?

I'd be very pleased if I only knew,
 How you survived the long winter through.
 Did you freeze when the atmosphere colder grew?
 While collecting the bills that were due, Fred Roo?

I passed through your town when the year was new.
 And as the "Old Historic Burg" came into view,
 I waited for a chance to say how do you do,
 To yourself and "Jim Thistlebeak" too.
 Fred Roo?

I noticed quite clear as the train passed through,
 The noses of some were a purplish hue.
 Perhaps it's the climate, the air, and the dew,
 And I wondered if any were you, Fred Roo?

You don't know me, or I don't know you,
 But really your "sniff" isn't bad, Fred Roo.
 It brings up a smile when we're all feeling blue,
 And we tackle life's problems anew, Fred Roo?

A report from Calgary announces the engagement of Miss Lyle Purvance, of Calgary, to George Patton, of Blairmore; and of Miss Patricia May Coverley, of Calgary, to J. J. Loftus, of Hillorest, the former wedding to take place in June, and the latter in September; and the honeymoon to be spent on beaches to be found in Maine and Florida.

Steal Thirty Cases of Rye

FERNIE, April 30.—James Chapman, C.P.R. yard foreman, of Crown Nest; L. G. McGee, car repairer; Wm. Parnaby, switchman; F. Meister, switchman, and James Grewcutt, teamster, all also of Crown Nest, were committed for trial here Wednesday by A. H. Watson, J.P., on a charge of stealing thirty cases of rye whiskey from a box car in the yards at Crown Nest on or about April 9, last.

In establishing the case for the crown, twenty odd witnesses testified. The shipment of liquor in question was traced from the time it was received from the Michel Liquor company, at Natal, B. C., for consignment to William Moon, Cowley, Alta., loaded in box car 128608, and the seal record taken and checked. Upon arrival at Crown Nest on the night of April 8, the seals were again checked intact, but on the following morning the conductor, checking his train before departure, found one seal broken, reported it, and had the car re-sealed. The car contained a consignment of beer for Coleman, and this was unloaded at that place, and the car re-sealed. Upon arrival at Cowley the shipment of liquor was short.

The investigation department of the railway company immediately made inquiries, with the result that after a second search of Chapman's abode at Crown Nest, four empty bottles of a kind similar to those which had been in the shipment were found nearby, while under the floor of the shack ten full bottles were found. Chapman was thereupon placed under arrest.

Further search resulted in several full bottles being found submerged in a creek near a stable of J. Strong, while also in five respective caches in the mountains about a mile east of Crown Nest 24 cases were located, buried in snow mounds. Meier and Grewcutt subsequently became implicated, and later made statements to the authorities of their alleged connection with the transaction, and this turn involved Parnaby and Meister, the two right switchmen who worked under Chapman. Parnaby also made a declaration to the police.

According to the evidence and the statements of these parties, however, they knew nothing of the actual breaking into the car. They came into the claim, after it had been removed therefrom, and assisted in relays in taking it from the C. P. R. yards to Chapman's shack. McGee and Grewcutt the following day proceeded to Coleman, where the negotiated for the sale of the larger portion of the liquor. Evidence was also forthcoming regarding these negotiations for sale by the parties approached, and further as to the removal of the liquor from Chapman's shack in broad daylight by Chapman, McGee and Grewcutt, shortly before the arrival of the authorities. The conveyance used was John Strong's team and sleigh, while Strong, in his evidence, admitted receiving a case of what he presumed was liquor, for permitting Grewcutt to use his team.

The wholesale cost value of the shipment was stated to be \$750. G. J. Spennell, barrister, of Cranbrook, B. C., conducted the prosecution, while Sheewood Herchmer, of this city, appeared for the accused Chapman, Parnaby and Meister. McGee and Grewcutt were undefended by counsel.

One of the noblest works of creation is the man who always pays the printer; he is sure of a bunk in Paradise, with the thornless roses for a pillow by night and nothing but gold to look at by day.

Edmonton's mill rate for 1920 has been set at 45, an increase of ten mills over last year and the high-water mark in the city's history.

The School Alarm

Along the quiet country lane the school marm goes slowly, her body is fragile, but her brain is going strong. She wonders how to make ends meet, no matter how so thrifty. With nothing to do, five bucks a pair, and winter cost a bit.

Twelve hundred dollars don't go far at the present cost of living. Although it's all spent on one's self, and nothing left for giving.

A poor chap walks close by her side, in a blank he is a teiler. And all the girls in town say, sure this girl is some teller.

Nine hundred dollars—nothing more—is all his yearly pay. And he is feeling mighty sore; he lost ten bucks today.

He has got to get that back somehow, or he'll be in a hole. And many other things told out of his monthly dole.

It makes a man feel rather sore, and something of a fool. At 27, with less pay than the female straight from school.

He gave the marm silk stockings to go to last week's ball. And if the truth were only known, himself wore none at all.

So if you see that teller when you go to draw your pay Please treat him very kindly, for he's had no food today.

—Calgary Herald.

A Man Went Down To Jericho

To buy a can of beans. He had a dollar fifty cents secreted in his jeans. He needed all his money, for he earned it thrashing wheat, but he knew his frau and youngsters had to have some beans to eat. When halfway down to Jericho he met a squeaky guy who quickly took his pocket-book and slammed him in the eye. The stickup artist took his coat—he was a trifle rude—and left him lying by the road, half dead and nearly nude.

A priest, a Levite and a clerk went whizzing down the road. They saw the man, they saw the wounds, and where the blood had flowed. They honked their horns and bolted out as they went scotching by; they opened up the cut-out and they threw 'em into high. The chairman of the village board, an alderman, a cop, all saw the victim lying there, but none of them would stop. A barber from Samaria, whose name and street address were overlooked next morning by the writer for the press, passed by and saw the injured man, took out his first-aid kit, and said, "I'm sorry, neighbor, can't I help you out a bit?" He put witch-hazel on the hurts, bound up the aching head, then peddled his man to Jericho, and put him safe in 'bed. He tipped the bellboy and the clerk, and said, "In this hotel please keep this injured friend of mine till he's completely well. Just send the bill to my address and I shall pay you all, though I may not have the money till next summer or next fall." Who was the poor man's neighbor, one of those who lit the nikes, or the simple old Samaritan, whose name perhaps was Ike—Charles B. Driscoll.

Evelyn Nesbitt Thaw Clifford has been served with a summons in a suit filed in New York City for absolute divorce by her husband Jack Clifford, who was her dancing partner. Mrs. Clifford has declared her intentions of contesting the case. She declares Clifford brought the suit to offset one she intended bringing against him.

P. N. Potapoff was up from Cowley on Tuesday.

Millions Involved In Merging of Big Steel Interests

Montreal.—Directors of the Canadian Steamship Lines, Limited, the Nova Scotia Steel and Coal Company, and the Dominion Steel Corporation, received and considered the proposals made by the interests behind the \$500,000,000 steel, coal and shipping organization to be known as the British Empire Steel Corporation, and formally consented to the transfer of securities involved, subject to the consent of the shareholders of the three interests which are to form the Canadian nucleus of the big consolidation.

According to the statement issued by Col. W. Grant Morden, the terms will be ready for publication in a day or two, and special general meetings of the companies involved will be called in the near future.

Col. Morden stated that the initial share capital issue of the new corporation will be \$205,000,000, but declined to state what amount of first, second and third, preferred and common stocks would be divided.

In addition to the three companies mentioned above, the consolidation would embrace the Halifax Shipyards Company, the Davis Shipbuilding Company of Lewis, the Port Arthur Shipbuilding Company, together with the latter's Kingston subsidiary, the Maritime Mail Company of St. John's, N.S., and possibly several other allied industries.

Calgary Editor Honored

J. H. Woods is Made Chevalier of the Order of Leopold

Calgary.—J. H. Woods, editor and managing director of the Calgary Herald, has been created a chevalier of the Order of Leopold by King Albert of Belgium, and on behalf of his majesty the star of the order was presented to him by H. DeBurler, Belgian consul at Calgary, at a public ceremony. The honor was conferred on Mr. Woods because of his signal services during the war as the secretary-treasurer of the Belgian relief committee for southern Alberta. Addresses were made at the ceremony by Mayor R. C. Marshall, and A. Allen, the chairman of the Belgian Relief Committee, and Mrs. Harold Riley of the women's auxiliary of the committee.

Attempted Bank Robbery

Ottawa.—La Banque Nationale at Gatineau Point, about three miles from Ottawa, was entered by robbers, and although persistent attempts were made to open the safe in the office, the burglars departed with very little booty. The safe baffled all attempts at opening and although the robbers managed to damage the hinges, the door could not be opened. It is believed the effort was made by residents of the district.

Close Victory Loan Transfer Book
Ottawa.—Notice is given by the finance department that on account of the interest payments due June 1, the transfer books of the 1915-25 war loan and the 1917 Victory Loan will be closed from April 30 to May 31 inclusive. Bonds which are received at the department for transfer after April 30 will not be transferred until after the opening of the transfer books on June 1.

Great Changes In Britain Are Wrought by War

Atlantic City, N.J.—Changes have been wrought by the war in Great Britain which "almost deserve the title of revolution," said Sir Auckland Geddes, British ambassador to the U. S., in an address before the annual convention of the United States Chamber of Commerce. "Vast new changes have been enfranchised," he said, and the working classes, strong anti-militaristic, now hold "ultimate political power."

"They seek to limit the nation's power," he said, "to secure tranquility in Asia Minor, in Asia and Africa. Silently and without fuss, the army has been reduced to a strength which many think barely sufficient to police the empire. The people are determined to deal with problems of

Railway Accident Takes Heavy Toll

Dreッシング and Pathetic Scenes Were Enacted in Train Wreck

Bombay.—Extremely distressing and pathetic scenes were enacted in the train wreck on the Oudh and Rohilkhand railway east of Delhi, on Saturday, when 150 passengers were either killed or burned to death. Only a few of the large number of women and children on the trains escaped burning, while there were only three survivors of the Hindu marriage parties.

As a result of the collision the gas installation, caught fire and the flames spread rapidly. The uninjured Indians fled terror-stricken to the jungle. Those remaining watched helplessly while the screaming victims slowly roared to death. The medical arms aboard the train were totally inadequate to give the necessary assistance. Several British abroad escaped injury. After the accident pools of molten silver were found in the vicinity resulting from the melting of the boards of rupees many Indians carry about with them.

May Redeem Property

Vancouver Court Refuses To Grant Foreclosure Before Opportunity Is Given

Vancouver, B. C.—German holders of Vancouver property will be given a fair chance to avoid foreclosure and the right to redeem, according to a ruling made in the supreme court by Justice MacDonald. Before the war, Countess Mira Dorhoff, Countess Elsa Farnhoff and Count Bigodorf, Dorhoff, of Berlin, Germany, purchased an apartment house in this city for \$90,000, paying \$36,000 cash and assuming a mortgage. The amount remaining unpaid amounts to \$54,000, and today a local firm asked for foreclosure. The defendants are asking for delay to enable a defence to be entered, and this the judge was inclined to grant.

Dwellers In Tents

Winnipeg Mayor In Sympathy With Those Attempting to Fight Housing Problem

Winnipeg.—That he was in complete sympathy with persons desiring to establish themselves in tents and shacks during the summer months to get away from high rents and housing difficulties, was the statement of Mayor Gray recently.

"The city," he said, "should be very lenient with regard to the placing of tents and shacks, particularly on and along the river bank. Citizens should not be forced to comply with all the civic regulations at such a time as when it is impossible to secure sufficient accommodation."

Would Mean A Saving

Dumfriemline, Scotland.—The Scottish trade union congress has passed a resolution in favor of liquor prohibition.

Railway Charter Refused

Dr. Reid Declares the Gaspé Line Could Not Be Made To Pay

Ottawa.—By a majority of only two votes the railway committee of the house of commons has refused to grant a charter to the Tabors and Edmundson railway company, to construct a 248-mile road through the interior of the Gaspé peninsula. A number of members, led by Dr. J. D. Reid, minister of railways, took the stand that such a road could not be built and maintained as an independent line; and the government would be almost inevitably compelled to take over the road later on to make it go or at least subsidize it.

"The day of subsidies is gone, I think," said Dr. Reid amidst great applause in the committee. He said that the provinces should make themselves responsible for such railway charters as a factor in the development of natural resources.

The vote by which the application was rejected was 31 against 29 supporting.

Will Evacuate German Towns

Whole German Force In Ruhr District Must Be Reduced to 10,000 by June 10

Paris.—Premier Millerand, in making a declaration to the chamber of deputies on the results of the supreme council meeting at San Remo, said that the Frankfurt and Darmstadt territories would be evacuated by the French as soon as the allied conditions had established the German armed force over the number allowed by the convention of August, 1919, had been withdrawn.

The whole German forces in the Ruhr region, the premier declared, must be reduced to 10,000 men by June 10 next, and by July 10 all the German soldiers must be withdrawn and replaced by a police force of 10,000 men.

"I stated at San Remo," Mr. Millerand continued, "and I repeat it here, now, that it is a crime and stupidity to believe that France desires to annex any fresh German territory."

The details of the treaty with Turkey, which he divulged before Turkey's plenipotentiaries came to Paris on May 10, but I can say that the treaty is in conformity with the outline already made public, the Turks being maintained in Constantinople and in the territories in which they are in the majority.

"An appeal has been sent to President Wilson asking him if his country cannot take up the mandate for Armenia, at least to collaborate in the fixing of the frontiers of the new state."

In conclusion, Mr. Millerand declared that upon leaving San Remo, the allies were more united than ever.

"If I may be permitted to say it, especially the contents between France and her sister of the Latin race is closer than ever," he said.

The premier's remarks received deep attention, but no enthusiasm was displayed in the chamber.

Cost of Victory Loan

Canvassers Were Paid Million Dollars in Commissions

Ottawa.—A total of \$1,110,402.37 was paid out by minister of finance in commissions to canvassers and brokers who handled the last Victory Loan. These fees ran proportionately higher in Quebec province than elsewhere; \$352,952.17 was paid on this head in Quebec, representing 22 per cent of the total subscriptions to the loan. In Nova Scotia \$57,573 was paid out, or 20 percent of the subscriptions. In Saskatchewan the figures are \$38,900, or 18 percent; in New Brunswick \$27,500, or 17 percent; in Ontario \$58,670, or 15 percent; in Manitoba \$54,200, or 13 percent; in Alberta \$19,150, or 11 percent; and in British Columbia \$22,455 or 6 percent. Prince Edward Island did not cost the federal government anything in brokerage or commissions.

Canada's Assets Have Increased

Ottawa.—A return tabled in the house of commons shows that Canada's total assets at the end of 1919 were \$1,087,537,461.27, when the country received an interest \$15,732,775.29 or 1.46 percent. This rate was more than twice as high in 1918, when the country received an interest \$7,421,001.58, on total assets of \$1,102,104,692.33.

Thrift Conference

Calgary.—The first Dominion thrift conference will be held in Calgary on June 3, 4 and 5. Every woman's organization in the country and the federal and provincial governments are being invited to send delegates.

W. N. U. 1314

Treaty to be Discontinued

French Trade Treaty Will Cease to Have Effect on June 1

Ottawa.—Mr. Bernard Rinfret (St. Jacques), was informed in the house that notice had been given of the intention to terminate the trade treaty between France and Canada. This would cease to have effect on June 1 of this year.

Mr. Rinfret was also informed that the government was aware that customs officers in Canada estimate the customs duties of foreign to the nominal value of foreign monies and not in accordance with the current exchange rates.

The government had no intention of changing this practice.

Japanese Massacred

Warships Are Rushed to Eastern Siberia With Troops

Washington.—Japanese guards in the district of Nikolaevsk, eastern Siberia, are believed to have been annihilated and several hundred Japanese residents, including the Japanese consul there, massacred, according to an official statement of the Japanese foreign office, and made public today by the state department.

The Japanese statement says the suspension of communication with the district rendered it impossible to get the real state of affairs, but that it was evident that a serious upheaval had taken place. Efforts of the Japanese to despatch military relief expeditions into the district had failed because of the ice. Meantime, however, the Japanese have sent an expedition to Alexandrovsk, accompanied by the warships Mikasa and Mishima. The forces reached their destination on April 22 and found the Japanese residents in that district safe. Most of them were taken aboard the Mikasa.

Lord Mayor of Dublin Returns

Released from Wormwood Scrubs, But Was Threatened With Re-arrest if He Returned

Dublin.—John T. Kelly, lord mayor of Dublin and Sinn Féin member of parliament, who was released from Wormwood Scrubs prison in England because of ill health, has returned to Dublin. "It is said that he will not be able to take office because of the effects of his incarceration."

He had been under arrest since May 25, 1916, on charges growing out of the Irish revolt of that year.

A despatch from London February 17, by Kelly's wife, was due to his state of health. Order of internment, it was added, was not revoked, and it was stated that Kelly was informed he would be arrested again if he made attempt to return to Ireland. During his convalescence, Kelly was ordered to report his movements to the authorities.

Make Increased Demands

Advance in Wages of 25 Percent Is Demanded by the Winnipeg Building Trades

Winnipeg.—Demands for a straight increase of 25 percent in wages was made by the building trade workers before the public meeting of the provincial fair wage board held today. General dissatisfaction was expressed against the proposed schedule of wages arrived at by the board. A. Cameron, of the carpenter's union, made the declaration that unless more wages are granted the building trade workers of the city, there will be a general migration to the States and other centres where the wages are higher and the cost of living lower. It was claimed that the costs of living had increased 133 percent since 1914, by delegates to the meeting of the board. Working on this basis the general rate of wages should be \$1.50 per hour, instead of around \$1.25.

The fundamental cause for all strikes, said James Winning, former president of the Trades and Labor council, is the long time that is taken by various boards in conducting negotiations and arriving at some decision. He objected to the fair wage board making its findings public until after the Builders' exchange has presented its schedule to the workers.

Protest Against Canadian Cattle

The minister of agriculture received another influential deputation protesting against the permission given some time ago for the importation of a hundred Friesian cattle from Canada, and expressing fear that the importation of other herds would be sanctioned. The deputation was told that the reasons were exceptional and a special investigation would be instituted, and assured that there was no intention of relaxing the restrictions against store cattle.

Villainous Plot Is Uncovered By U. S. Officials

Germany Is Pleased

Invitation to Attend Conference Is Welcomed As A Token of Equality

Berlin.—The invitation extended by the supreme council to the German government to send representatives to the conference is viewed by George Bernhard in the Vossische Zeitung as a signal improvement in Germany's diplomatic position. "Germany thereby being delivered from the shackles of its enforced isolation."

The co-operation of Germany, and France and Belgium will form the nucleus of a next active policy to work out a European confraternity, he adds. The semi-official Allgemeine Zeitung, discussing the destruction of war material under the treaty in state arsenals and about 25,000 private workshops, expresses the hope that the Entente will relax demands for surrender of all resulting waste material which now constitutes virtually the sole raw material for keeping the iron and steel foundries in operation, since the supplies of ore from Lorraine, Luxembourg and other places have ceased.

Dr. Adolf Koester, minister of foreign affairs, in an interview published by the Allgemeine Zeitung, said he welcomed the Entente's invitation to Germany to send representatives to the conference at Spa.

"We presume," he added, "that the negotiations will be between two partners equally convinced of the necessity of firmly reconstructing Europe and we hope to show our former opponents that we have the earnest wish to fulfil the peace treaty to the utmost limit of our capacity."

Dr. Koester regrets that the statement of the allied governments did not mention the occupation of Frankfurt and the Main district; since the number of troops in the neutral zone was now only 17,000, which was allowed by the agreement of 1919.

"In these circumstances," he continued, "the occupation of the Main district is superfluous. Consequently we have instructed the president of the German peace conference delegation to ask the allied governments to confer when the illegal operation of the Main district will terminate."

Fiume Again Blocked

Communications to the Town Have Now Been Completely Severed

Trieste.—The blockade which Fiume is now undergoing is admittedly the most severe to which it has been subjected. The communications of the town have been completely cut off, regular Italian troops tearing up sections of the railway and bringing up numbers of machine guns to guard the frontiers. Passage in and out of the city is absolutely forbidden, not even milk going in, and connection with the outside world by the sea route has been completely severed. Gabriele D'Annunzio, the insurgent commander-in-chief, is threatening counter action.

To Relieve Prussians

Berlin.—The German committees of San Paulo, Brazil, have sent to Field Marshal Von Hindenburg a gift of 321,842 marks for the relief of the East Prussian population.

Potato Boycott

Stratford, Ont.—Some three hundred women at a meeting in the city hall pledged themselves not to buy any potatoes for one month unless offered at \$3 a bag.

Not Concerned About Internal Affairs of U. S.

London.—The United States senate Irish resolution was brought up in the house of commons and drew several pointed questions. Ronald MacNeil, Unionist member for the Canterbury division of Kent, asked the government if it had "any official information regarding a manifesto to be issued in Washington by an organization known as the Philipine's Commission for independence, in which it is maintained that American belief in the principle of self-determination would be demonstrated more impressively by conceding the repeated demonstration for independence by the three and a half million inhabitants of the Philipine, than by passing resolutions in the senate expressing sympathy with the cause of Irish independence."

Andrew Bonar Law, replying for the government, said he had no information on the question, which did not seem to be one in which the British government was concerned. Numerous other resolutions followed, and Sir Edward Carson, the Ulster Unionist Leader, asked whether it was not better for each country to leave the other alone.

Mr. Bonar Law replied he thought that, in other words, it was his answer.

Washington.—Plots against the lives of more than a score of federal and state officials have been discovered by the department of justice as part of radical May Day demonstrations, Attorney-General Palmer has announced.

Assassinations and assaults, Mr. Palmer said, were included in the May Day program organized by the Communist Labor Party and other radical elements, and were in addition to the strikes and other disturbances intended by the radicals as an effort on behalf of peace with Soviet Russia.

State officials marked as victims were notified by the department. The department has information, according to the attorney-general, that the instigators of the May Day demonstrations here have been working "in direct connection and union" with the leaders of disturbances set for Europe. As in Europe threats were made to incite strikes in all basic industries.

All the propaganda, making May Day disturbances, referred to "inhuman treatment" of the Soviet government of Russia by the United States and the Allied powers, Mr. Palmer continued. In foreign sections of industrial centres appeals for "peace with Russia" have been employed as the main method in stirring up dissatisfaction with this government.

The Communist labor party also sent numerous personal emissaries to cities where the field was deemed ripe. These men have been under constant surveillance by Federal agents, and it was through their activities that the government was first able to establish definitely the aim of the group for May Day disturbances.

Strikers Appeal to King George

Resolution is Sent to His Majesty on Behalf of Convicted Winnipeg Leaders

Winnipeg.—King George has been appealed to by the labor leaders' defence committee for the release of the convicted strike leaders.

A copy of a resolution passed at the recent convention has been forwarded to His Majesty and copies have also been sent to the minister of justice and the governor general of Canada. In the resolution it is claimed that the trades unions of the city voted for the strike and were therefore responsible for the same. There was no intention whatever to overthrow the existing forms of government and that an injustice has been done to labor and the men convicted.

Make Own Arrangements

Victoria.—Pilots here claim they have not been informed of the government's decision to declare open pilotage in British Columbia waters after May 6. In that event they are prepared to carry on with their own organization and will make their own arrangements with the shipping interests.

Of Local and General Interest

"The mold of a man's fortune is in his own hands."

Big words and small ideas make a poor combination.

Do you remember when you could buy a meal for a quarter.

The road between Pincher Station and Pincher Creek is to be gravelled.

Humanity would be better to-day had our forefathers lived up to their epiphs.

Our worst misfortunes never happen and most of our miseries lie in anticipation.

Sam Mason and family left here on Friday night's express for their old home at Cheslyn-Hay, Eng. land.

The atmosphere of any place of business is often determined by the mental attitude of the majority of those who live in it.

A. E. Smith went to Spokane by Saturday morning's train, where he will spend a few weeks before returning to Lethbridge.

It cost the Church Forward Movement of Canada a little over one half of one per cent. to raise fourteen million dollars.

Following numerous complaints of behaviour in some of the Calgary dance halls, the dances will be checked by the police in future.

Orders have been sent out from Ottawa, extending the time for filing income-tax returns for the whole of the Dominion to May 31st.

Hon. C. R. Mitchell has assumed the portfolio of minister of municipalities and public health made vacant by the death of Hon. A. G. Mackay.

There is some hope for the man who spends today talking of what he will do tomorrow; for the man who talks of what he did yesterday; none—the Hustler.

No man can keep on pretending good will to his fellows. He has to feel it in order to show it, and if he feels it, he will try to render service, not run bluffs.

In 1920 all Canada's tire factories combined will produce about two million automobile tires, an increase of about forty per cent. over the previous year.

The regular monthly meeting of the local Red Cross will be held at the home of Mrs. L. P. Robert on Tuesday evening next, May 11th. Everybody welcome. Tea 25 cents.

A large number of citizens were at the depot on Friday night last to bid bon voyage to three families from Blairmore and four families from Coleman who were off for the Old Country.

We have to thank someone for being so considerate as to send us a pair of overalls through the post on Friday last, but regret to report that it was utterly impossible for us to enter them endways. They are about six feet too short.

A sitting of the local court was called for Friday morning last, to hear charges against A. Poggiali, Micky Joyce, Mrs. Poggiali, Tony Basso, L. H. Putnam, A. Evelyn Smith, "Footy" Poggiali, Mrs. Frischak, A. J. Kelly, A. Guthrie, Dora Philbeck, Inspector Wood, of Lethbridge Island Revenue office, Archie McLeod, and the reporter—hal' hal'.

J. R. and Mrs. Smith and W. and Mrs. Jackson and family have left for a short visit to Eng. land.

The Bellevue Young People's Club will give a wind drive and dance in the Oddfellows' hall at Blairmore tomorrow (Friday) night.

A convention of the U. M. W. of

A. will be held at Calgary on May 17th, at which a conference committee will be elected to enter into negotiations with the operators over a new wage contract.

Rev. J. P. Wetman, who has served the congregation of Trinity Methodist church, Nelson, for the past year, has received an invitation from the congregation to remain another year.

The Bellevue Horticultural and Industrial Society will hold their first annual social and dance in the Oddfellows' hall at Blairmore on the night of Friday, May the 21st, commencing at 8 o'clock sharp.

As soon as the United States Supreme Court decided that stock dividends were not taxable income the Continental Oil company, one of the Standard Oil group, declared a dividend of two hundred per cent.

The court of appeal of the Methodist church has dismissed the appeal on behalf of Rev. William Evans, of Winnipeg, against the action of the Manitoba conference which practically dismissed him from the Methodist ministry last May, following his conviction as a leader in the big general strike last summer.

Never mind your competitor. If he is lying or misrepresenting, he will dig his own grave, for the public will get on to him sooner or later. If he is really sacrificing values, he is helping you get rid of a competitor, for he cannot continue in business by the policy of selling merchandise for less money than he can duplicate it for—Ex.

Mah Moon's restaurant closed to the trade on Friday last. Moon is a dark subject who has been conducting a restaurant business in Blairmore for the past two years, and is obliged to quit to give place to the Western Canada Wholesale Co., who have purchased the premises he occupied. Moon will shine again as soon as suitable premises can be secured.

Carmangay experienced a \$50,000 fire on Friday morning last. The fire started in Miller's pool room and in its sweep took the telephone exchange building, Parkinson's two buildings, Jim Fong's restaurant, R. Robert's gent's furnishing store, Collier's saddlery, William's building, Long Sing's building and the office and equipment of the Carmangay Sun.

Gow Bill, a Lethbridge Chinaman, who was convicted on a gambling charge and fined \$25 and costs, has been exonerated by the supreme court. C. F. Harris acted for the appellant. In squashing the conviction, Mr. Justice Hyndman held (1) That there was no evidence before the convicting magistrate that the house, place, or room referred to was a place kept by any person for gain to which persons resorted for the purpose of playing at any game of chance, (2) That there was no evidence that the said defendant was the keeper or that he acted or behaved as the master or as the person having the care, government, or right of the house, room or place referred to; (3) That there was no evidence that any game of chance was played; and (4) That there was no evidence that any instruments of gain used in unlawful games within the meaning of section 985 of the Criminal Code were found in the said premises.

Alex. Morency returned last week and from a visit to Spirit River.

Miss MacIntosh has forwarded, care of Mrs. Farmer, a number of special books on "Home Canning of Fruits, Vegetables and Meats," copies of which anyone interested may secure upon application to Mrs. J. H. Farmer.

A man by the name of Dunn, attempted suicide at Fernie on Thursday morning last by slashing his throat with a pocket knife. Dunn seemed to be laboring under the delusion that the Bolsheviks were about to do him grave harm.

"According to Scripture," said Mr. Halber, former M. P., "it was eating the apples that taught Eve that she was naked, and so far as I can see it is nearly time to pass the apples around again."

The anniversary of Oddfellowship will be observed by The Pass Oddfellows in joint participation in religious exercises at Coleman on Sunday afternoon next. All Oddfellows and Rebekahs are requested to be present. They will parade to the Institutional church at 2 p. m.

The case of the Crown versus A. Poggiali, Mrs. Poggiali and Toni Basso, who are charged with obstructing police in the discharge of their duties, etc., will be heard summarily tomorrow. The police officers in question are Detective Sergeant Lohb and Detective Ferguson, both of Lethbridge, who were stopped by defendants when attempting to institute a search of Poggiali's premises for an illicit still.

On the day of the big snowstorm about the middle of March, a farmer near Brandon, Manitoba, lost two turkeys and expected to find their dead bodies when the snow disappeared. On April 7th, the turkeys came to life again, after being buried under the snow for three weeks and two days. One of the turkeys was able to get out of the snow prison, and when the other was liberated it flew away as if nothing had ever happened.

Notice to Creditors

NOTICE

To ALLESIO BRUNETTI, MIKE BOLLETTINO, JAMES PECCE- NAITO and UBERTO BOVIO, formerly of Beaver Mines, Alberta.

TAKE NOTICE that J. C. Croshaw, of Beaver Mines, Alberta, has applied to the Board of Public Utility Commissioners, Alberta, for the cancellation of part of Beaver Creek Sub-division according to a plan of record in the Land Titles Office for South Alberta Registration District as Plan No. 1898 A.L. and whereas it appears upon Allesio Brunetti and Mike Bollettino are registered owners of Lot 10, Block 8, and you James Pecconatto and Umberto Bovio are the registered owners of Lot 2, Block 3, part of the Sub-division applied for to be cancelled, the said J. C. Croshaw is applying that Lot 10, Block 8, in said Sub-division be transferred to you James Pecconatto and Umberto Bovio in lieu of Lot 2, Block 3. Should you wish to protest against said exchange the objection must be given before and will be heard on the hearing of the application to be held at 10:30 a.m., Friday, June 4th, 1920, at the office of the Public Utility Commission, 916 Macleod Block, Edmonton, Alberta.
